

# NEW GRAD JUMP START PROGRAM

At Protect Financial, we are very proud of our New Grad Jump Start Program. This program is free of charge to all of our clients, and contains four key components:

## Resume review

We've reviewed hundreds of resumes. We work with new grads looking for their first Associate position as well as established clients seeking to make a change. A third-party review can make a significant difference in whether or not you are invited to an interview.

## Associate Opportunities

We maintain a database of information on Associate positions available. We just might connect you with the perfect Associate opportunity!

## Associate Agreement Review

Although it may be the first time you review an associate agreement, we have years of experience when it comes to what to look for.

We help many clients to identify issues worthy of discussion with their potential principal dentist.

## Practice Purchase Opportunities

If you are like many of our clients, within five years of graduation you will probably be in the market to buy a practice. We stay close to our clients who are approaching retirement and keep track of any practices that come up for sale. If the time is right, we could help you find a practice to acquire.

## Some additional perks of the New Grad Jump Start Program include:

- In person and virtual seminars designed to improve knowledge and acumen on topics such as investment strategies, buying vs building a practice, human resource issues, personal and corporate borrowing, and incorporating.
- Small group events: dinners, sporting events, and study groups.
- Financial planning advice

“Protect Financial is committed to providing exceptional service to their clients. In addition, the resume and associate agreement review service they provided were invaluable resources in securing a position.”
